

To the FCC commissioners,

The FCC was created to serve the public interest with respect to the media. Loosening ownership rules paves the way for increasingly monopolization. In order to best serve the public interest, the industry must be home to a multiplicity of opinions. The commission should not further deregulate the media, but should, instead, examine ways to foster a diversity of viewpoints.

Please support docket 02-277, and protect the wealth of difference we who live in the United States are privileged to enjoy.

Sincerely,
Kathryn Offer
